Submit a Plugin

Sisense Web Application includes a plugin framework that allows you to add new customizations or modify existing functionalities easily. Some common Sisense plugins types are:

- New widget types
- Extending the functionality of existing widgets
- Extending the functionality of a dashboard as a whole

For example, you can create a new network chart, Histogram or add some cool animation to spice up the dashboard.

If you've already developed a plugin that you are using internally, or you've always dreamed of some cool functionality you can contribute, now is your chance to help enhance the product and contribute your knowledge to the Sisense community. You can find a [full list of all existing Community plugins](#) here.
